In re Application of:	:	
REINDL, Andreas	:	
Application No.: 10/521,584	:	DECISION
PCT No.: PCT/EP03/07590	:	
Int. Filing: 14 July 2003	:	
Priority Date: 18 July 2002	:	
Attorney Docket No.: BASF.10029	:	
For: NADH-DEPENDENT CYTOCHROME B5	:	
REDUCTASE AS TARGET FOR	:	
HERBICIDES	:	

In a Communication mailed by this Office on 03 October 2005, it was stated that the "Notification To Comply With Requirements For Patent Applications Containing Nucleotide And/Or Amino Acid Sequence Disclosures" (Form PCT/DO/EO/922) mailed herein on 07 July 2005 was properly addressed to prior counsel and therefore remained in force.

The basis for the 03 October 2005 communication was a finding that the "Revocation Of Power Of Attorney With New Power Of Attorney And Change Of Correspondence Address" filed by the assignee on 27 May 2005 was defective (such submission had sought in part to correct the correspondence address herein from that of prior counsel to the address listed above). The specific defect cited in the 03 October 2005 communication was the assignee's failure to include a copy of the referenced assignment with the "Revocation" materials.

Subsequent to the mailing of the 03 October 2005 communication, a copy of a submission filed on 09 June 2005 reached the application file. This submission included a copy of the previously filed "Revocation Of Power Of Attorney With New Power Of Attorney And Change Of Correspondence Address" and a copy of the referenced assignment. This submission constitutes an effective change of the correspondence address herein and is therefore **APPROVED**.

Because the effective change of correspondence address was filed in the USPTO on 09 June 2005, prior to the 07 July 2005 mailing of the "Notification To Comply With Requirements For Patent Applications Containing Nucleotide And/Or Amino Acid Sequence Disclosures," such Notification should properly have been addressed to above-named counsel. Because the "Notification To Comply With Requirements For Patent Applications Containing Nucleotide And/Or Amino Acid Sequence Disclosures" mailed 07 July 2005 was not directed to the proper address, the Notification is appropriately **VACATED**.

This application is being forwarded to the DO/EO/US for further processing in accordance with this communication, including the mailing of a new "Notification To Comply With Requirements For Patent Applications Containing Nucleotide And/Or Amino Acid Sequence Disclosures" directed to the above-listed correspondence address of record.

A handwritten signature in black ink, appearing to read 'RMR', is positioned above the typed name of the signatory.
